- Health and dental benefits
- RRSP matching contributions
- Twice-weekly in-house yoga'
- Social retreats
- Annual fitness stipend

Role:

We currently have opportunities for Senior Civil Engineering Technologists based out of our Victoria, British Columbia office. The role includes civil engineering design and drafting, with direct supervision from an engineer, construction inspection, and project support.

Responsibilities may include:

- Preparation of storm, sanitary and watermain drawings
- Preparation of roadworks drawings including plan, profiles, sections
- Preparation of servicing concept and zoning plans
- Preparation and design of Stormwater Management Plans and calculations, and Erosion and Sediment Control Plans
- Preparation of Detailed design drawings to support both subdivision and building permit applications.
- Project planning, implementation, coordinating fieldwork (in town and out of town).
- Strong competency with CADD and Civil 3D with a minimum 5 years experience working with this software.
- Coordination with clients, contractors, regulatory agencies and subconsultants.

Qualifications & Experience

- 15-20 years of Civil/ Municipal Infrastructure Engineering in BC. Candidates with additional experience will be considered.
- University degree in Civil Engineering or registration with ASCT.
- Professional status or designation (P.Eng., P.Geo., P.Ag., ASCT).
- Knowledge and experience working with First Nations in BC and/or First Nations membership.
- Demonstrated project management experience on a variety of small, medium and large projects.
- The ability to deal tactfully and effectively with clients and co-workers.
- Ability to work effectively in a high demand, fast paced environment.
- Must have a valid driver's license.

Compensation:

Salary and bonus structure is industry competitive and negotiable based on experience. Potential signing bonus to the right candidate.
